

Product Modeling Basic

ACADEMY-PROMO-101

ACADEMY-PROMO-101 is designed for participants who want to get an introduction to the Tacton modeling products. The course offers hands-on work with Product Modeling in Tacton Administration as well as a basic understanding of Tacton's back-end products and solutions.

The goal of the course is for participants to be able to translate their own product knowledge, data and processes into a Tacton configuration model. They will also be able to set up and maintain the modeling part of a Tacton Configurator project on their own.

TYPICAL STUDENT

Design engineers, product managers, and product experts, who will be responsible for setting up and maintaining Tacton configuration models

Developers of Tacton configuration applications who want a better understanding of Tacton configuration models

PREREQUISITES
